Instructions to download Softwares and Tutorials for SELF workshops,
Spoken Tutorial Project, IIT Bombay

Steps:

1. Click on http://www.spoken-tutorial.org/create_cd_content.
2. Click on the FOSS category, Please select the Software to download which you have selected for conducting workshop. Select the language. You can select multiple languages by pressing **CTRL+Click.**
3. After selecting the software and language Click on **Add**.
4. You will see a small table which will specify the software name and language you have selected to download.
5. You can select more than one software as well to download by repeating **Step 3** and **4.**
6. Once the above steps are done Click on **Submit.**
7. This will prompt a window to open/save the zip file. **Please save the zip file onto a pendrive. This can be used to install the course in all the systems.** OR you can copy the zip folder content in CDs/DVD and use it for distribution or demonstration purposes.
8. Extract the content from the zip file into a folder.
9. Open the folder. Locate the read-me-first.txt file. Open it and read it carefully.
10. Follow the instructions given inside to locate the Installation and Instruction sheets. Do as directed in the Installation sheets to install the software in all the computers.
11. Take enough print-outs of the Instruction sheets – one for each participant.
12. Copy the extracted folder on each computer before the workshop.
13. Before Workshop:
    1. Hand-over one Instruction sheet to each participant before the workshop.
    2. To begin the workshop, the participants have to open index.html file present in the extracted folder.
    3. index.html file will be Open only by Firefox browser. It is offline.
    4. We recommend participants to follow the sequence of topics given in the index.html file for better learning .
